

COBALT BOATS

R8 SURF

Cobalt Surf System

Wake Surfing Technology.

Our revolutionary Cobalt Surf System (CSS) that delivers the cleanest waves and best push on the water – exactly the world-class tournament-style waves the surf pros demand. The CSS includes 6 hard ballast tanks that can have as much as 2300 pounds of ballast, a specifically-designed surf hull, the Volvo forward drive engine and the best-in-class Surf-Gate™ technology that shapes the perfect wave.

Surfing Made Simple

- ☞ The core of CSS is simplicity of operation. You're only three easy steps away from a superior surfing wave.
- ☞ Fill ballast tanks
- ☞ Set GPS directed cruise control to desired speed
- ☞ Select surf control left or right
- ☞ Throttle up and surf

Hard Ballast

Your Cobalt surf boat has 6 hard ballast tanks and can have as much as 2300 pounds of ballast. The hard ballast tanks allow you to better scale the wake and wave for all ages and ability levels. Keep the weight even from side to side so your wake is clean on both sides.

Surf Gate™

Surf Gate is the dominant surf technology in the industry – and for good reason. Using high-speed hydraulic actuators, Surf Gate creates an endless surf-able wave on either side of the boat. Just ask the pros – they'll tell you Surf Gate creates the longest, highest, cleanest and has the best push out there. Get back as far as you want or as close as you want.

Volvo Penta Forward Drive

Uniquely engineered with two forward-facing counter-rotating props that pull the boat through the water rather than pushing it, Forward Drive gives small-craft leisure boaters new found versatility. Whether wakesurfing, wakeboarding or simply cruising, Forward Drive allows boaters to enjoy endless days of fun without sacrifice. Armed with power trim and an enlarged trim plate, drivers can easily customize their wake for watersports, then level off for smooth cruising.
